

# Jamshid Ghaderi

SELECTED PROJECT

04

Kermanshah, Iran

Urban residential accommodation with parking levels, typical apartments and larger upper-floor homes.

PROJECT DOCUMENTATION

Plans / elevations / sections / construction details

# Plans & spatial organisation.

# Elevations & material logic.

## 01 / CEMENT RENDER

Water-rubbed cement finish, as noted on the source elevation. A light warm-grey tone provides a restrained facade treatment.

## 02 / OPENINGS

Six residential window rows follow the source arrangement. Subtle blue-grey glazing distinguishes openings from the solid wall surface.

## 03 / BASE & ROOFLINE

The central vertical core continues above the main roof. The source specifies a 200 mm stone plinth and a suitable drip edge to the facade finish.

### SOURCE SCOPE

The supplied set contains one external elevation: the south facade. The two other vertical drawings are sections, presented on the next sheet.

Color is a presentation overlay; geometry and dimension strings are taken from the original drawing.

# Sections & vertical organisation.

A-A / TRANSVERSE SECTION

B-B / STAIR SECTION

## Construction details.

01 / SQUAT WC &amp; WATERPROOFING

## 02 / WC FLOOR CONNECTION

### 03 / ROOF RAINWATER OUTLET

## 04 / ROOF PARAPET & COPING
