

Shahdokht Kamali

SELECTED PROJECT

03

Kermanshah, Iran

Five residential floors above ground-level parking, with a shared stair, lift and roof enclosure.

PROJECT DOCUMENTATION

Plans / elevations / sections / construction details

Plans & spatial organisation.

Roof & Stair Headhouse

Courtyard

Roof / stair headhouse

Courtyard

Ground / parking

Typical residential

Elevations & material logic.

DRAWING RELATIONSHIP

Cement-rendered wall surfaces, a stone plinth and repeated openings establish the facade composition. Colours are presentation overlays; refer to the original specification.

DOCUMENTATION FOCUS

Opening alignment, floor levels and shared access.

Sections & vertical organisation.

DRAWING RELATIONSHIP

Sections relate the parking and occupied levels to the common circulation core and rooftop enclosure. Read the level annotations with the corresponding plans.

Section A-A

TRANSVERSE SECTION

Section B-B

LONGITUDINAL / STAIR SECTION

DOCUMENTATION FOCUS

Opening alignment, floor levels and shared access.

Construction details.

01 Squat WC & Waterproofing

Wet-area floor junction with a 300 mm membrane upstand at the wall.

Leaf guard and membrane return at the roof outlet. Source notes identify a 4 mm waterproofing layer and lightweight fill.

02 WC Floor Connection

Ceramic finish, mortar bed, protective screed and waterproofing above the slab

Sloped coping, render and a turned-up roof membrane protect the parapet junction.
